PROJECTS

NPM package [↗](#) | [SVGR](#), [Rollup](#), [Babel](#)

- Package includes a variety of icons that can be easily integrated into your React project using simple, intuitive syntax.
- All icons in the package are vector-based, meaning they can be resized and customized without losing quality or resolution.

React Icon Website [↗](#) | [React.js](#), [Bootstrap](#)

- Centralized location where users can access all the icons available in the npm icon library.
- Users can easily browse through the icons and select the ones they need for their project.
